Chief of the Department of Plastic Surgery, Ospedali Riuniti di Bergamo, Italy, from 1997 to present date.

Acting Chief of the Department of Maxillofacial Surgery, Ospedali Riuniti di Bergamo, Italy, from 2004 to present date.

Clinical Assistant Professor in Plastic Surgery (tutoring fifth year residents) at the University of Torino School of Medicine, from 2000 to present date.

Lecturer at the post-residency subspecialty "Master in Aesthetic Surgery" Courses of the Universities of Milano, Padova and Genova (topic: "open rhinoseptoplasty").

Corresponding Member of ASPS. Member of ISAPS. Member of the Rhode Island Hospital-Brown University Alumni Association . Member of the Board of Directors of the Italian Society of Plastic, Reconstructive and Cosmetic Surgery (SICPRE), years 2001-2002, 2004-2005 and 2007-2008. National ESPRAS delegate for SICPRE. Member of the Editorial Board of "Clinical and Experimental Plastic Surgery" Life Member of the Board of Directors of the "Fondazione Sanvenero Rosselli", Milan, since 2007. Referee of the Italian Ministry of Health for the CME program for the Specialty of Plastic and Reconstructive Surgery.

Has led diverse volunteer Plastic Surgery missions to underprivileged countries (Bosnia Herzegovina: a total of four months in Zenica in 1995 and 1996, as Expert of the Ministry of Foreign Affairs, founding a plastic surgery dept.) (West Bank, and Gaza: six missions to present date).

Author or co-author of 230 papers and talks, on national and international journals and at national and international meeting venues. (including 28 papers on international journals, 5 monographs and 5 book chapters). Moderator, Chairman, Panelist or Invited Speaker at many meetings concerning the field of reconstructive or aesthetic surgery. Organizer of 12 courses with live surgery in recent years at the Ospedali Riuniti in Bergamo, with international guest surgeons. In the last few years, he has lectured widely nationally and internationally on the topic of open, primary and secondary, septorhinoplasty.

Has co-directed the "*First Bergamo Open Rhinoplasty Course*" in Bergamo on November 28-29, 2008, an international intensive course specifically devoted to open rhinoplasty. The second edition of the course is due for March 11-13, 2010.

With over 7000 cases to present date, he has been and is active in general reconstructive plastic surgery, with emphasis on flap reconstruction in the head & neck, lower and upper extremity, trunk and perineum, including microsurgery. In recent years, his interest has predominantly focused on breast and lower extremity reconstruction, also due to the large local increment of breast cancer cases. In private practice, he is involved with a vast scope of cosmetic surgery, with predominant focus on breast and rhinoseptoplasty. The latter subspecialty has especially grown in recent years, with a special interest in complex secondary and tertiary cases.
