5 PM - 7 PM

AUGMENTATION MASTOPEXY

DIRECTORS: Michael SCHEFLAN (2070), Constantin STAN (1004)

OBJECTIVES

- Learn how to select the appropriated breast implant to be applied, assessing the risks associated to the procedure
- Prepare a post-operative plan to recognize, diagnose and treat each specific complication
- Review most common complication cases such as infections, botto-ming out, symmastia, capsular contraction...
- Discuss the chances to perform a second surgery to remove or replace the implant

LOWER BLEPHAROPLASTY OPTIMISATION

COURSE DIRECTORS

Naresh JOSHI, Foad NAHAI

COURSE OBJECTIVES

by attending this Teaching Course, the attendee should be able to:

- Evaluate the patient ophthalmologic condition (lacrimal function, visual acuity, ptosis, globe positioning, tarsal laxity) and identify conditions which may predispose patients to post-operative problems
- Be able to identify the proper techniques suited to each patient
- Perform eyelid rejuvenation procedures applying new approaches to lower-blepharoplasty
- Appraise possible complications as hematoma, blindness, ectropion, and dry eye
- Debate pearls and pitfalls using patient examples to optimize results
