

Dear Colleagues and Friends,

The Israel Society for Plastic & Aesthetic Surgery is pleased to invite you to the upcoming **Plastic Surgery at the Red Sea - An Aesthetic and Reconstructive International Symposium** that will be held on March 11–14, 2015, in Eilat. The symposium will be followed by the **ISAPS Course** (March 13-14).

As in our successful meetings in the past, the Symposium in Eilat will focus on both aesthetic and reconstructive plastic surgery with world - renowned plastic surgeons participating in the symposium.

The Plastic Surgery at the Red Sea symposium has become a unique scientific and social event, bringing together Plastic Surgeons from all over the world to learn, celebrate and meet old friends.

I am proud to refer you all to Dr Rod Rohrich's editorial in PRS of October 2013 after attending this so special meeting:

Plastic Surgery at the Red Sea International Symposium will take place in Eilat, the southernmost city of Israel. Eilat is situated on the Red Sea and it is surrounded by the mountains and the ever changing landscapes of the Negev Desert. The area is extremely unique and it is known for its hospitality, excellent weather, breathtaking and varied natural landscapes, as well as its bountiful coral reefs, with their wide variety of marine life. The Eilat symposium will take place at the luxurious Royal Beach Eilat Hotel.

We look forward to welcome you to the Plastic Surgery at the Red Sea International Symposium and ISAPS course and to witness the strengthening of scientific and personal ties amongst the participants.

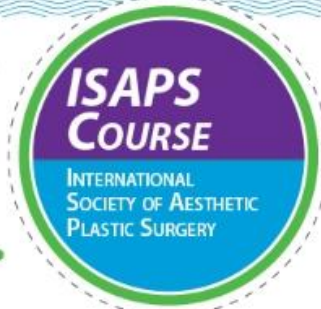

Yours sincerely,  
 Eyal Gur, MD, Israel,  
 President of the Israel Society for
