

Rhinoplasty Society of Europe:

Rhinoplasty Video Symposium

**PARIS – Palais des congrès – Thursday January 31st, 2013
from 8.30 AM to 6 PM**

For the first time, world renowned rhinoplasty experts, both plastic surgeons and facial plastic surgeons, will show you in detail their favorite techniques in primary rhinoplasty utilizing short videos. Each panelist will discuss the similarities and differences of their technique thereby explaining the reasons for their own choice.

All aspects of rhinoplasty will be covered: approach, tip surgery, functional surgery, septoplasty, hump resection, osteotomies, dorsal augmentation, nasal base surgery.

Ultimately, those surgeons attending the symposium will learn the latest and most sophisticated rhinoplasty techniques from an international faculty of experts.
