## WELCOME

Dear Colleagues,

It's our pleasure to invite you to the third part of our triple congress 2015 in Stuttgart, closely combined with the 23rd Stuttgart Advanced Course for Functional & Aesthetic Rhinoplasty and the 1st Stuttgart Symposium on Nose Reconstruction taking place from 17th to 21st of March 2015.

It will be some kind of a farewell meeting, because after that I will step back from my post as director of the department of facial plastic surgery at Marienhospital Stuttgart.

Enrico Robotti organized an outstanding Rhinoplasty Society Meeting 2014 in Bergamo inspiring all participants. The format of our Annual Meetings with short video presentations which was inaugurated by Olivier Gerbault during the meeting in Paris is extremely effective and participants of such a meeting benefit a lot of this kind of further education.

You are invited not only to participate passively but also to contribute a short video clip no matter if you are already a member of the society or not.

After the initial presentations we will have the major part of the meeting addicted to 50 short video presentations (maximum 5 minutes) covering one single aspects of rhinoplasty, your special favorite technique and tricks concerning one of the following topics:

- Septum
- Bony pyramide
- Dorsum
- Nasal tip
- Alar correction
- Special problems
- New instruments, fillers, etc.

It will be a great pleasure to welcome you in Stuttgart and with your help and support it should become a great event. Thanks for your help.

For further information about the Rhinoplasty Society of Europe please visit our website [www.rhinoplastysociety.eu](http://www.rhinoplastysociety.eu).

Yours sincerely

Wolfgang Gubisch  
President of the Rhinoplasty Society of Europe

## INFORMATION

### SELECTIVE SPEAKER

Rick Davis (Miramar, USA)  
Charles East (London, UK)  
Hossam Foda (Alexandria, Egypt)  
Olivier Gerbault (Paris, France)
